

ANTONELLI COLLEGE

Vicki Lewis
Interior Design

I chose Antonelli College because of the small class sizes, the resource library, and because of my interest in interior design. I had just been downsized and realized I had to regroup. As a child I was always cutting out pictures and making room designs from them. I knew it was what I wanted to do.

I am currently employed at the Nisbet Brower Showroom. I work in kitchen and bath design. I assist customers with cabinet and countertop selections. I also work with doors and other architectural materials. I do in home consultations and get to be involved with entire projects.

I feel the instructors and staff at Antonelli were very helpful in keeping me motivated and providing me with what I needed to learn. They were always interested in what I was doing. Everybody knew me by name!

It was a proud moment when I graduated summa cum laude after attending Antonelli College for almost 4 years. I was able to accomplish my dream of attending and graduating from college.

It is never too late in life to choose a career and work toward the goal!
