Massage Therapy

After being deployed in Iraq as an Army Reservist, I wanted to learn a skill that would provide total body healing mentally, physically and spiritually. I saw a commercial for Antonelli College and stopped in for a visit. I was impressed by the welcoming staff and individualized attention given to students. The small class sizes allowed for an intimate learning environment. This all led to my achievement in graduating with the first massage therapy class magna cum laude and obtaining my massage license.

After graduation, I began working at Spaaaah! Wellness Center. I performed medical massage therapy techniques and practices. I was also working at the Better Man Salon in Montgomery where my clientele consisted of many athletes. Currently I am employed at Tri-State Orthopaedic Treatment Center where I perform medical massage for accident and personal injury patients pre and post surgery.

Over the past four years, I have worked in a variety of settings, received my sports therapy certificate for massage, served as a member of the Antonelli College Program Advisory Committee and remain active with the Flying Pig Marathon Massage Event. I am so proud of my education and experiences at Antonelli College!
